

## GEORGE TOWN CAYMAN ISLANDS

Cap d'Ail, the 25<sup>th</sup> April 2016

To Nautech Team,

We recognise and honour their commitment toward providing estimates and works unmatched the services in the field of maintenance, repairs and works. Whilst doing business with Nautech Shipyard, you will be assured of excellent service and quality work handled only by personnel with World-class know-how.

It is with pleasure and gratitude that we share comments on our experience with Nautech Shipyard in work that they have been done.

Their commitment toward developing and motivating their Engineering and Technical Business Resources is what distinguishes them from the rest. The experience at each phase of the survey was superior, such as innovative efforts in developing prospects, effective showing and proactive participation during the five years survey partnered with Lloyds Classification and Flag Cayman Island register.

All of the duties before the departure of the M/Y DB9 were accomplished with a noticeable degree of competence, humility, integrity and grace and discretions.

I just wish to say that I am greatly appreciative of the successful completion of the required works within the required time frame. It has been an absolute pleasure working with you and I hope all technical managements and Captains will bring more vessels here to Nautech Shipyard in the future.

I have enjoyed working here with you immensely.

Many thanks to all of you and I wish you all the very best for the future of Nautech Shipyard.
